

# I THINK I SHOULD REPORT SEXUAL EXPLOITATION AND ABUSE, BUT I AM WORRIED WHAT WILL HAPPEN.

I worry about what will happen to me if I report sexual exploitation and abuse

You will be protected by the organization

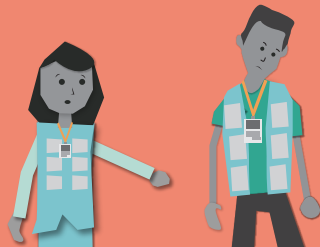

I worry about reporting without having all the information

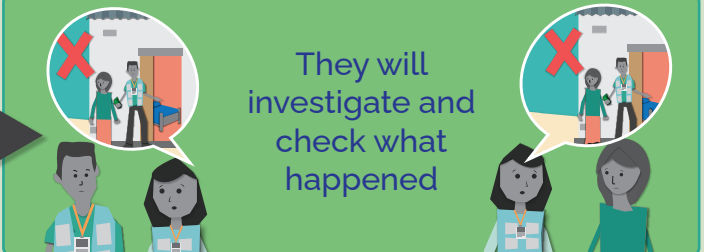

The organisation will find out all the information and it will protect everyone involved

I worry about an innocent person losing their job

They will investigate and check what happened

I worry it may do more harm to the person already hurt

If you don't report, she won't get help, and things could get worse

I can feel safe when I speak up to stop abuse.
